

Coronavirus Disease 2019 (COVID-19)

On February 11, 2020 the World Health Organization **announced** an official name for the disease that is causing the current outbreak of coronavirus disease, COVID-19. CDC will be updating our website and other CDC materials to reflect the updated name.

Coronavirus Disease 2019 (COVID-19) in the U.S.

Updated February 19, 2020

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus. The outbreak first started in Wuhan, China, but cases have been identified in a growing number of other [international locations](#), including the United States. This page will be updated regularly on Mondays, Wednesdays, and Fridays.

Persons Under Investigation (PUI) in the United States*†‡

Positive	15
Negative	412
Pending [§]	52
Total	479

*Cumulative since January 21, 2020.

† Numbers closed out at 4 p.m. the day before reporting.

§ Includes specimens received and awaiting testing, as well as specimens en route to CDC.

‡ Does not include passengers from the Diamond Princess cruise ship, including presumptive-positive cases, who were returned to the U.S. via State Department-chartered flights.

Number of states and territories with PUI: 42

States with Confirmed COVID-19 Cases

States	
State	Cases
